**Subject:** FOR REVIEW: South Fork Final Permit and RTC

**Importance:** High  
**Flag:** Follow up

Pat and Greg,

The draft Response to Comments and RLSO version of the final permit for South Fork Wind are ready for your review. Context-wise, I believe our responses are in pretty good shape. I haven't had a chance to read back through everything, so I'm sure you will find typos and grammatical errors, and maybe some sentence structure that needs reorganizing for flow. There are few comment bubbles where I added some additional information, but the document is ready for review and further editing.

Here are the links to the working copy of the Response to Comments and RLSO of the Final Permit. No need to track minor edits in the Response to Comments but please track all changes in the final permit so that we have a RedLine-StrikeOut copy for the changes made. These links should work for anyone at EPA. I'm routing to you both concurrently due to timing considerations.

[South Fork Final RTC OCS-R1-04.docx](#)

[Redline-Strikeout SFW Final Permit OCS-R1-04.docx](#)

All of the South Fork documents are available online at <https://www.epa.gov/caa-permitting/south-fork-wind-llcs-south-fork-windfarm-draft-outer-continental-shelf-air-permit>.

At times, I also found it helpful to review some of the VW files. <https://www.epa.gov/caa-permitting/permit-documents-vineyard-wind-1-llcs-wind-energy-development-project-800mw-offshore>

Feel free to call my cell if you have questions. Have a good Christmas and we'll talk soon!

Eric
